EDUCATION

University of Central Florida — B.S. Information Technology

Expected Dec. 2027

Major GPA: 3.8 | Overall GPA: 3.3

Relevant Coursework: Human Computer Interaction, Object-Oriented Programming, Operating Systems Concepts, Databases, Computer Science I, Topics in Cybersecurity (AWS)

TECHNICAL SKILLS

Web Development: HTML5, CSS, JavaScript, React.js, Three.js

UI/UX Design: Figma, Wireframing, Prototyping, User-Centered Design, Visual Design

Development Tools: Git, GitHub, Version Control

Programming & Data: Java, Python, C, SQL

Creative Tools: Canva, Photoshop, Procreate, Blender, Adobe After Effects

PROJECTS

Interactive 3D Portfolio Website | React, Three.js, Blender

Independent Project

- Design and develop an interactive 3D portfolio website using JavaScript, React, Three.js, and CSS, translating original visual concepts into a functional web experience.
- Model original 3D assets in Blender and integrate them into a browser based Three.js environment, learning how to bridge 3D design with front end development and interactive functionality.
- Use Git and GitHub for version control while iteratively developing, testing, and refining responsive components and interactive 3D elements.

Feed Florida — Hurricane Safety & Resource Planning Web App | Figma, UI/UX, APIs

UCF HCI Project

- Conducted user research and collected feedback from diverse users to identify hurricane preparedness needs, using findings to guide the design of an accessible web application for users across age groups.
- Collaborated with a team to wireframe, prototype, and develop Feed Florida, creating high fidelity Figma designs informed by iterative user feedback and accessibility considerations.
- Integrated API-driven real-time hurricane tracking data into the web app and delivered a live demonstration, presenting the team's design process, functionality, and final solution.

WEB & DESIGN EXPERIENCE

Web Developer | Society of Asian Scientists and Engineers (SASE), UCF

Jun. 2026 – Present

- Develop and maintain SASE UCF's website with student developers and designers, supporting a 150+ member organization.
- Use Git and GitHub for version control and collaborative development, contributing code changes to a shared project repository.
- Apply JavaScript/CSS, UI/UX principles, and Figma to create responsive, user friendly website improvements.

Digital Marketing & UI Design Intern | Laus Consulting

Jan. 2024 – Jun. 2024

- Designed and prototyped a responsive property listing website using user centered design principles.
- Collaborated with team members to improve website usability and create intuitive user experiences.
- Analyzed website performance and user engagement data to support design improvements and optimization.

LEADERSHIP & CREATIVE EXPERIENCE

Design Team | Girls Who Code, UCF

June 2026- Present

- Apply Figma, Canva, and user-centered design principles to translate technical information into clear, engaging, and accessible visual content.
- Contribute creative ideas during team planning and design discussions, incorporating feedback and iterating on designs to support shared project goals.

Creative Director / Senior Advisor | Asian Student Association, UCF

Aug. 2023 - May 2025

- Founded and led a 40+ member multidisciplinary media committee of designers, photographers, videographers, and content creators, increasing membership by 40%.
- Produced 150+ digital graphics, branding materials, and campaigns generating 50,000+ views across the UCF community.
